CD 100 AIRSERVER TECHNOLOGY: Mirroring the iPad
1. Turn on the computer, and make sure that both the monitor and desktop is powered on.

2. Turn on the projector, the on/off switch is located behind the projector.

**Helpful Hint:** If you need to turn on and off the projector, please wait one minute for the heating element or bulb to cool.
3. Log on to the computer using your Lynn University credentials.

4. Click on the start menu, and type in “AirServer” in the search bar.
5. Double click AirServer Universal to launch the AirServer.

6. On your iPad lock screen, swipe UP to reveal the Wi-Fi and airplay icons.
7. Tap airplay

8. Locate the name of the AirServer
   
   **Helpful Hint**: The AirServer name is the same as the computer.
9. Swipe mirroring on

10. Once mirroring is turned on, the iPad will be mirrored on both the projector screen and the computer monitor.

*Helpful Hint:* The AirServer Technology allows the sharing of multiple iDevices simultaneously.
