## Adding your Device to Lynn\_Open

---

This Lynn\_Open SSID is used for Gaming Consoles, Smart TV's Apple TV's, Roku's etc. that do not support the 802.1x protocol. Simply put, your device does not support the entering of your Lynn University username and password and only supports WEP or WPA/WPA2 security standards. We do not recommend that any student uses this SSID for anything other than gaming and television as it is not secure.

Please do not attempt to connect to the Lynn\_Open wireless network prior to registering it on [ise.lynn.edu](https://ise.lynn.edu) as you may be locked out. A lockout means that you are unable to connect to the network for 30 minutes and any subsequent attempts within this timeframe will simply reset the timer.

1. Using a PC or Mobile device navigate to [ise.lynn.edu](https://ise.lynn.edu) and login using your myLynn username and password and click the box to agree to the conditions. Your username is simply the first letter of your first name and your last name, example: jsmith. (You will need to read the entire disclaimer for the "I agree to the terms and conditions" box to become active.)

**LYNN UNIVERSITY** My Devices Portal

**Sign On**  
Welcome to the My Devices Portal. To manage your personal devices, sign on using your My Lynn Account username and password.

**Username:**  
jsmith

**Password:**  
\*\*\*\*\*

You are responsible for maintaining the confidentiality of the password and all activities that occur under your username and password. Cisco Systems offers the Service for activities such as the active use of e-mail, instant messaging, browsing the World Wide Web and accessing corporate intranets. High volume data transfers, especially sustained high volume data transfers, are not permitted. Hosting a web server or any other server by use of our Service is prohibited. Trying to access someone else's account, sending unsolicited bulk e-mail, collection of other people's personal data without their knowledge and interference with other network users are all prohibited. Cisco Systems reserves the right to suspend the Service if Cisco Systems reasonably believes that your use of the Service is unreasonably excessive or you are using the Service for criminal or illegal activities. You do not have the right to resell this Service to a third party. Cisco Systems reserves the right to revise, amend or modify these Terms & Conditions, our other policies and agreements, and aspects of the Service itself. Notice of any revision, amendment, or modification will be posted on Cisco System's website and will be effective as to existing users 30 days after posting.

[Contact Support](#) | [Help](#)

3. Click on Add

4. Enter the Devices Name, Mac address, and Description and click submit. Please make sure the letters in your Mac address match exactly as your device displays them as capital letters are important for this step.

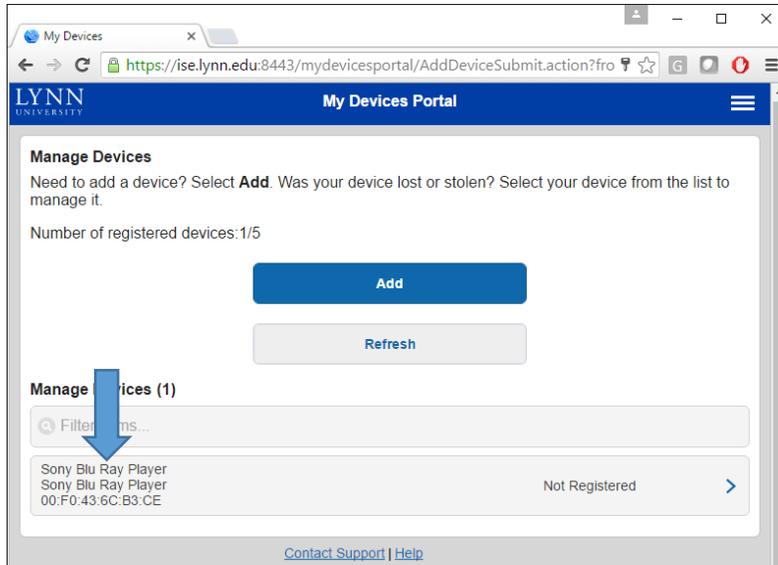

5. You should then see your device in the list.

6. Your device is now being added to the Lynn\_Open wireless network and will take 35 minutes. After 35 minutes, you will be able to connect your device to the Lynn\_Open wireless network. Please feel free to contact IT Support Services if your device does not connect after 35 minutes at +1-561-237-7979.

You have the ability to add up to 5 devices, should you need to remove a device follow the following steps.

1. After logging in click on the device you wish to remove

2. Click on delete.
